Vocabulary List
Current Book Selections

MUSIC

Habitat Tunes - Singing
Musical Geese - Movement to Music

BACKGROUND INFORMATION

Articles - "Migratory Birds", "Freshwater Marsh"

- ★ *Do you need a warm-up activity this morning?*
- ★ *Is PE over, but it's not quite time for recess?*

As part of the Central Valley focus of the North American Waterfowl Management Plan, these games and activities will supplement your environmental education program, while providing "sponge activities" for those short sections of time that occur during the teaching day.

It is hoped that these materials will create an awareness of waterfowl as a disappearing resource, and a sense of value for the birds and their habitat that remains.
